

NOT IN SLIDES, JUST FOR INFO, FOR US

# What we are?

- It is a service
- It is a **free** service (can say at the end, “best of all, this is free and available for all”)
- Wait-time tracking tool
- Provide accurate wait-times for customers
- Browse restaurants and their specific waiting time (related to ^)
- Shows average wait-times and actual wait-time during operating hours
- Restaurants know when to staff people, waiting time costs sales, due to customers leaving the queue

“**Popular times graph:** This graph shows how busy your location typically is during different times of the day. “

# *Quik***Bites**

A top-down view of a person's hands and arms as they eat a meal. The person is wearing a light blue denim shirt. They are holding a white plate with a fork and knife, cutting into a meal that includes red tomatoes, yellow corn, and white rice. A clear glass of water is on the table to the left. The table has a colorful geometric pattern. The background is a solid red color.

Wait times have never felt so short
